

Brad Moody

Executive Vice President, Operations

Lowers & Associates

Professional Summary

Internationally recognized as a subject matter expert for security compliance and audit, Brad is a frequent speaker, author, and moderator on risk mitigation, cyber fraud, financial services compliance, occupational fraud, anti-money laundering, and social engineering awareness education.

He is a thought leader in security, financial services, cyber risk, cryptocurrency, healthcare security, insurance markets, and professional consultancy services.

Brad offers 25 years of executive experience in financial services risk management and has collaborative partnerships with financial institutions by managing audit and compliance programs. Ingrained in his work is a specialty in cyber security where he leads cyber risk assessments, vulnerability assessments, and incident response programs utilizing various methodologies such as ISO, AICPA, and NIST.

He has also built security management programs and guarding operation practices integrating various technology solutions for Fortune 500 companies, resulting in uniform operational excellence.

Prior to joining Lowers Risk Group, Brad's experience as executive manager of transaction services for Bank of America included contractual relationships with suppliers and armored transportation providers servicing 173 cash vaults, 250,000 commercial customers, 6,000+ banking centers, and the bank's network of 21,000+ ATMs. Brad also managed a team that evaluated security controls and surveys for cash vaults, ATMs, and banking centers as well as investigations on suspected vendor robbery and theft.
